£4.00 a week!

Zenloc® Container Alarm

Ultimate defence against truck, trailer,
container and goods theft

The **Zenloc® Container Alarm** warns the driver of an attempted container breach via remote receiver

The Zenloc® Container Alarm

emits a piercing tone and a high intensity strobe light when activated by an attacker.

Sender & Receiver

Any interference with the doors of sealed containers also sends a coded signal to a receiver, carried by the driver and will give a loud audible tone.

- Increased driver safety - no need to leave safety of cab to check if container is being attacked
- Transferable from vehicle to vehicle • Simple to install and use • Minimal user attention
